

Ravensden Neighbourhood Plan – August 2021 Update

Despite a difficult year with Covid-19, East-West Rail, and being restricted to Zoom meetings, the Steering Group have been progressing the Neighbourhood Plan with several important milestones achieved.

We are now planning a drop-in event to update everyone

Date: Sat 25th September
Time: 10am – 2pm
Place: Ravensden Village Hall

Last year you told us about your priorities for the parish, including very limited new housing development and the importance of protecting and enhancing the local environment. Many of you also contributed to the Green Infrastructure Survey and Local Greenspace Assessment.

Over the autumn we will be preparing the draft plan for formal consultation before submission to Bedford Borough Council in 2022. We'd now like to invite your comment on:

- Our **Vision and Objectives** for the parish up to 2030.
- Our **Housing Sites Assessment Report** - options for any new housing development.
- The results our **Green Infrastructure Survey and Local Greenspace Assessment**.
- A **'Design Code'** for the Parish which will guide any new developments and help maintain the character of the village.

Please come along to the Village Hall on 25th September anytime between 10am and 2pm.

There you can pick up more information on our plans, share your views with the Steering Group or leave Post-it notes with your comments.

There will also be a questionnaire for residents to give their views. All documents will be available on <https://ravensdenplan.info>
